Learn to enter a child's world through the magic of play, the language of children.

- ❖ This friendly and welcoming small group training is for therapists, counselors, social workers & others who work with children ages 3 to 12 & who are interested in learning Child Centered Play Therapy (CCPT), a core skill for helping children who are experiencing behavioral or emotional difficulties. This humanistic therapy is based on the premise that play is the language of children, that growth and healing develop from fully & completely accepting the child exactly as she or he is & that safety and structure are essential ingredients. The workshop is limited to 6 participants.
- ❖ On Day 1, the focus will be on theory & practice. The essential CCPT skills, structuring, empathic listening, imaginary play & limit setting in a way that develops responsibility, will be taught through the use of videos, roleplays & individualized, supportive feedback.
- ❖ On Day 2, the focus of this workshop will be on deepening knowledge in the areas of understanding themes, recognizing stages & tracking progress. We will also look at trauma play as well as ways of involving parents & teachers in the therapy process. In addition to didactic material, role plays & videos will be used. Participants are encouraged to bring case material.
- ❖ Date and Time: Saturday & Sunday April 14 & 15, 2012 10:00 AM to 5:00 PM
